Dear Parent/Carer,

The Physical Education Department would like to welcome everyone back. The reason for this letter is to ensure your son/daughter is aware of how P.E. will look as we move back to face to face learning and out of lockdown restrictions.

Broad and General Education – S1-3

During April and May, where possible and in line with current Scottish Government restrictions all S1-3 classes will be outside and all pupils will need full P.E. kit for every lesson. Classes will be taking part in Athletic events as well as summer games such as rounders. As we move into the better weather, we would recommend sun cream and water is brought to all P.E. lessons.

From the 17th of May, we will hopefully have the option to take part in some indoor activities. This will include the option to swim. This date is still to be confirmed by the Scottish Government and class teachers will update classes when appropriate.

Senior phase – SQA classes

From the 26th of April, senior phase classes will have the ability to take part in both indoor and outside activity. This will be primarily for the assessment of pupils sitting their NPA, National 5 and Higher course awards. This will include swimming.

However, most senior classes will be working in classrooms in order to complete essential coursework and prepare for prelims. Class teachers will update pupils with details on what they should expect each week.

Your sincerely,

Mr Weir – Principal Teacher of Physical Education
